About Me

Senior Product Designer with 7+ years of experience in fintech and sports media. Specialized in scalable design systems, UX research, and data-driven product solutions. Proven track record in increasing user engagement, conversion rates, and retention. Experienced in leading cross-functional remote teams.

Experience

UX/UI Designer – Freelance

Mar 2026 – Present

Tech Stack: Figma, Framer, Shopify, React Native, Cursor, [Leonardo.ai](#), Midjourney, FigmaMake, Webflow

Working as a freelance designer on websites and digital products across different domains

- Recently designed from scratch a donation platform for the Russian Red Cross focused on fundraising and launching charity initiatives
- Currently working on a website and app for WearSun, a brand developing custom high-tech insoles

Product Designer – Yollet | Crypto / Fintech

Sep 2025 – Feb 2026 (6 mos)

Tech Stack: Figma, FigJam/Miro, Figma Make, React Native, Cursor, Notion/Confluence, Jira

- Owned end-to-end product design for Yollet, a non-custodial crypto wallet with built-in crypto↔fiat exchange (no P2P).
- Led discovery and research: defined key scenarios, mapped user flows, and translated insights into product decisions.
- Designed core wallet + exchange experiences (IA/UX/UI), built interactive

- prototypes, and produced dev-ready specs for handoff.
- Worked directly with the CEO and engineering team, aligning requirements, feasibility, and delivery.
- Built the design process from scratch and created reusable artifacts (flows, wireframes, guidelines, documentation).

Adjunct Lecturer (UX/UI Design) | ITMO University

Sep 2025 – Jan 2026

Developed and delivered an original UX/UI Design course for Product and Project Managers end-to-end. Independently owned curriculum design, lectures and workshops, student mentoring, and assessment (including final exams).

Product Designer – Sports | SportsTech / Media

Apr 2024 – sep 2025 | Remote / Serbia

Tech Stack: Figma, BigQuery, Protopie, Framer

- Designed and launched AI-powered **Short Sports newsfeed**, attracting **60K new users in the first month**. Retention research showed ~70% D21 retention (users kept returning daily for at least 3 weeks).
- **Redesigned live match pages** (football, basketball, hockey, tennis): boosted SEO rankings into **Top-3**, increased reach by **+72%**, and introduced new statistical widgets. (*Some sports still in pre-release stage.*)
- Conducted **UX research with 1,850 users**: identified major pain points, created a prioritized backlog, and validated improvements in a second research wave, confirming percentile growth in usability scores.
- **Actively contributed** to the cross-platform **Design System** (web & mobile), which improved UI consistency by ~80% and accelerated design-to-dev handoff.
- Implemented **ResearchOps & FAQ hub**, reducing support workload by **30%** and cutting average support response time (agents now redirect users to FAQ instead of handling repetitive questions).
- **Fantasy Football** — full-cycle UX/UI for a new product: gamification mechanics, redesigned player cards, bonus systems.
- **Multi-sport Match Center redesign** — user testing showed **10/10 respondents** preferred the new version. Dev team already confirms faster load times and better SEO optimization compared to legacy pages.

Product Designer – Garage IT | Fintech

Dec 2020 – Mar 2024 (3 yrs 4 mos)

Tech Stack: Figma, Miro, Amplitude, BigQuery, Webflow, ProtoPie, Kotlin, HTML/CSS, Hotjar, Useberry

- Led UX strategy for investment platforms, trading terminals, affiliate programs. ● Improved user flows → 3× MAU growth, 2× 7-day retention.
- Redesigned subscription & commission features → conversion ↑ 1.5% → 9.87%. ● Drove rebranding, launched new affiliate website.
- Built & maintained design systems across mobile & web.

Product Designer – Sberbank | Fintech

Nov 2019 – Nov 2020 (1 yr 1 mo)

Tech Stack: Figma, Sketch, Principle, HTML/CSS

- Automated offline steps in credit applications → processing time 24h → 3h. ● Delivered features for remote legal updates & early loan repayment. ● Ran field research with entrepreneurs to refine product UX.
- Integrated solutions into Sberbank design system.

UX/UI Designer – Baltic Technology Company | Agency

Jan 2018 – Sep 2019 (1 yr 9 mos)

Tech Stack: Figma, Sketch, Miro, Principle, InVision, React

- Delivered 10+ projects (fintech, crypto, real estate, event management). ● Designed 1C Accounting app for remote financial management.
- Created Trackee (cargo tracking) & My Petersburg (event tracking).

Core Skills

- UX & Product Design: Web & Mobile Apps, Design Systems, Interaction Design, Prototyping (Protopie, Framer)
- Research & Analytics: UX Research (SUPR-Q, JTBD, CustDev), Amplitude, BigQuery, Hotjar, A/B Testing
